Dear Colleagues,
Breast cancer survivorship is more challenging than ever before. The board of the BVS/SBS would like to invite you to our next conference, this time on *“Breast Cancer Survivorship”*.
During this conference we will discuss survivorship following local and systemic treatment of breast cancer. Part of the meeting is on management of toxicities with new systemic therapies.
The BVS/SBS has invited top experts in the field including opinion leaders from abroad: medical oncologists, an onco-psychologist, a rheumatologist and a breast cancer surgeon. We sincerely hope that you will be able to join us, also this year!
